# ABOUT US

---

Navyug Foundation is a non-profitable, non-religious, social service organization with the intention of helping the helpless. It does not receive any government funds and as such depends entirely on the generous donations of businesses and individuals.

Through the pain and grief of the destitute children, our eyes were opened to the sufferings of thousands of young children around the world; children suffering for no fault of theirs.

We are a Non Government Organization (NGO) registered to function on an All India basis. Our prime goal is to provide a better and a happier life for children and young adults. We run many campaigns and work along with schools and colleges across India to improve the quality of life for these young minds.

If you feel passionately about helping our youth overcome many social- emotional- economical issues of today then join us and help us build a better tomorrow for the entire nation. These young minds will build our tomorrow.

Some of our ongoing campaigns are Awareness Programme against Drug abuse, better communication of teenagers and young adults at home, creating your own support system and dealing with peer and other pressures. We began our visits to various schools and colleges, and continue to spread the light. We have qualified counselors on board for individual support of members. Please come forward and volunteer by joining our online groups or filling the volunteer form and feel free to invite others. We look forward to knowing all you members just a little bit more.
