

# 2020-2021 Annual Report

**Navyug  
Foundation**

empowering for a better tomorrow, today

## PRESIDENT MESSAGE

**Vikrant Singh**  
Founder & President

This year has been a year of hopes and challenges not surprisingly in the life of an organization working for the poor and the marginalized.

We complete 8 years of service to the disadvantaged section of the society. We are proud that fifteen years ago a few committed persons came together to shape their commitment to serve the Poor and marginalized in the form of building an organization **"NAVYUG FOUNDATION"** that has changed many a lives.

We believe that along the years the organization has grown with more people getting associated bringing their experience, expertise, commitment and dedication. Our experiences of hardship and challenges have made us renew our commitment and dedication to the cause. We are happy that we have been able to keep our heads above water and keep our feet firmly on the ground during adversities. Neither challenges nor opportunities have swept us off our feet. Beginning with our intervention in Watershed Management we have deepened and broadened our engagement with the community. We have been able to forge convergence and synergy for holistic development of the partner community. Our interventions on livelihoods promotion have been layered with issues of governance and interventions on issues of governance have been fortified with livelihoods promotion. Creation of cadres from among the partner community has been the strength of Navyug Foundation and we are happy that the trend has continued unabated till date.

*All human beings are  
born free and equal in  
dignity and rights.*

*They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood.*

We are a registered NGO called Navyug Foundation based at Delhi. We are active in promotion and protection of human rights of a Citizen. Our activities include, among other things: To undertake research in every field of human welfare and seek global collaboration, to promote the socio-economic, educational and cultural interests of the weaker sections of society, to take up programmers related to women and child development and to set up suitable institutes to advance the cause of the Navyug Foundation.

## VISION

---

Healthy and self-reliant community life with dignity ensuring equal opportunity, rights, liberty, justice that enables participation, informed decision-making and creates ability to resolve the issues.

## MISSION

---

Capacitating the weaker section, especially the women and the SC and OBC through skill building, leadership development, micro credit, natural resource management and increasing demand generation of entitlements with a special focus on enhancing opportunity for sustainable livelihoods.

The Society has made small, but effective strides in the following areas:

1. Health care
2. Education
3. Social rehabilitation and rural upliftment
4. Women empowerment
5. Environment
6. Supporting government in improving governance

**Navyug Foundation** exists to make significant contributions to education in a manner consistent with social justice, equity, humane values, and sustainability within the framework of secular and democratic Indian polity. A number of key principles continue to guide the process of the Society's evolution. These principles deeply inform our strategy and approach at many levels and are worth articulating here.

**Operating Organization:** We are an operating organization and not a funding organization. We recognize the importance of creating institutional “social infrastructure” to complement the government, and as an operating or implementing organization, we work in partnership with the government to improve the quality of education across the country.

**Education and Allied Areas as the Domain of Work:** Education is a powerful vehicle for social change, and it is the primary focus of our work. We work primarily for India’s large underprivileged and marginalized population. Related domains such as health, nutrition, livelihoods, governance, and ecology also have a critical bearing on education. We work in these areas, addressing their complex interrelated structure. However, we realize that it is not possible for a single organization to work with equal intensity and focus in all these areas, and therefore we calibrate our efforts based on the nature of the specific challenges, our own capabilities and our ability to work with partners, and extended resources.

**Scale of Work:** We seek systemic change – all our work is aimed at creating large – scale impact either directly or indirectly. Such system – wide change that touches the large underprivileged population of India is possible only by working in close partnership with the government. However, we are also open to work independently as well as with other private institutions, if required.

## CHILD EMPOWERMENT

‘Navyug Foundation’ aims to build a society in which every child attains the right to survival, protection, development and participation. Our NGO offer care for needy children, provision of healthcare and educational facilities, scholarships for the needy students and a home for orphans. Navyug Foundation help to work towards elimination of practice of child labor, child sexual abuse, and other issues of child rights and to take appropriate steps for their rehabilitation.

*“Be gentle with yourself, you’re doing the best you can”*

## YOUTH EMPOWERMENT

A growing number of India's youth need the right educational infrastructure to develop skills and adequate opportunities to get employed or become entrepreneurs. However, the wide gap between those who have access to education and skill development opportunities and those who do not, is a challenge that has to be overcome. '**Navyug Foundation**' works towards reducing the gap between those who have access to education and skill development opportunities and those who do not have. '**Navyug Foundation**' aims to empower young people to contribute positively to society by working together on issues related to health, education, human rights, civic education, anti-corruption and other development issues; Help to maintain unity, understanding, cooperation, tolerance, peace and harmony among the youth communities in particular and public in general; Provide proactive leadership and advocacy and shape the agenda on issues affecting young people and youth services; Collaborate on issues that affect young people and youth workers; Ensure youth's organizational development, efficiency, effectiveness and good governance; Address the unemployment problem in the state; For any other activities relating to youth empowerment.

## EMPOWERMENT OF GIRLS AND WOMEN

Gender-based discrimination and societal behavior leading to physical and psychological harassments, emotional violence bordering on cruelty is never scant in woman's basket of woes. Social evils begin at the womb with female feticides, infanticides, sexual harassments, rape and dowry related tortures putting an end to her misery only at the tomb! In order to make the girls and women realize their inner strength and importance in the society, '**Navyug Foundation**' has taken a pledge to illuminate their lives with 'Pride and Dignity'. Our NGO is committed to enhancing the skills and of any information relevant to make girls and women realize their self-esteem.

*"If you can't feed a hundred people, then feed just one."*

## EMPOWERMENT OF MENTALLY & PHYSICALLY CHALLENGED

Our NGO is dedicated to improving the lives of people with multiple disabilities, autism, cerebral palsy, hearing impairment, etc. We work towards the integration of people with disabilities into mainstream society. **Navyug Foundation** helps to develop confidence in the minds of all type of mentally & physically challenged people and motivating them to face the daily activities without others help; To work for preventing disability; To focus attention on their career development and helping them to get placed in jobs making them financially independent; To encourage change and innovation and bring sharper technological focus on the selected target groups; To help parents by educating them on various aspects of the disability of their child; To extend support to any activity relating to improvement in management, technology, product quality and productivity in various facets of economic life which will directly or indirectly contribute to economic upliftment of the disabled; To help design innovative teaching materials, specialized computer software, computer projects, etc; To assist in any other activities for empowerment of mentally and physically challenged.

## HEALTH CARE SERVICES

Our NGO initiates programmes for improving health care services including holistic healthcare for senior citizens, healthcare for children & adolescents, healthcare for women, poor and other underprivileged sections. We assist to identify major issues in regard to health and hygiene and work to overcome these issues;

To take initiative for reforming and developing health related courses scientifically; To produce proficient health workers and practitioners; To play supportive role for inquiry, investigation and research works relating to health; To do scientific health examination through modern health equipment/tools; To conduct various health campaigns; Promoting civic engagement in low-income communities; To develop and adopt cyber technology for the enhancement of communication skills in the fields of health promotion; and other health related activity.

## CONSERVATION/ENVIRONMENTAL ISSUES

**Navyug Foundation** involves in developmental and sensitization programmes for conservation and preservation of environment such as water & energy conservation, marine and coastal conservation, civic and environmental sanitation, pollution control activities conservation of soil and energy, rain water harvesting, watershed, participatory irrigation management; and for any other activities related to conservation or for any environmental issues.

## OTHER ISSUES

**Navyug Foundation** organizes programmes of accident prevention and rescue initiative on roads, workplace, homes and environment; control/manage the situation arising out of natural calamities like flood, earthquake, drought, epidemics, etc; provide necessary relief to these victims by securing financial and material support/assistance from other institutions, agencies and person. Our NGO is dedicated to reducing animal suffering caused by people and seek better treatment of animals everywhere – in the laboratory, on the farm, in commerce, at home, and in the wild.

**Navyug Foundation** is committed to eliminate or reduce poverty and unemployment. We aim to promote entrepreneurship cum skill development training program for attaining economic self reliance; empower the vulnerable, landless, below Poverty Line (BPL) families and other needy to take up income generation activities or to set up micro enterprises.

Our NGO help to create awareness about art and culture among the common people; promoting Indian handicrafts and other traditional industries; help in the maintenance and protection of antique and archaeological collections.

*“Success is not how high you have climbed, but how you make a positive difference to the world.”*

## EDUCATION

Illiteracy is the worst worm engulfing a vast area of our country and extracting blood from the veins making a person crippled. They are handicapped because of meager resources and cannot afford to send their children to schools and provide them better education with books and stationery. These children also do menial jobs to augment the family resources. The Government has enacted laws to culminate child labour and provide education within the reach of these people. Unfortunately, laws and rules have no significance for these people who are themselves illiterate and do hard labour throughout the day, leaving no time to look after the family affairs. Therefore we have undertaken and initiated a programme to teach these less fortunate children. **Navyug Foundation** had undertaken and initiated a programme to teach children's. They were imparted education by qualified and experienced trained teachers through LBF methodology.. In last three years, we have been imparting classes for vocational trainings also with aims to motivate and mobilize the skill trainings education. There was no fee and even books and stationery were distributed to the children free of cost at primary and upper primary level. The progress of the centre is evinced from the fact that the number of students are rising steadily as compared to the previous year and it may rise substantially in the coming year necessitating in creating more and more learning centre.

The age and quality has no end to education. Along with the normal, lessons were given in physical and moral education, which were vital in character building. And it had its direct impact. Health had been dealt with earlier. Periodical camps were organized practically and periodically in all the venues covered by Navyug Foundation during the year. Medical and health checkup were undertaken spread throughout the year. Preventive measures were advised and medicines were distributed wherever necessary after the checkup. Serious and urgent cases were referred to the hospital catering to these territories. Yoga is another source healthy living irrespective of the area one lives in. it was appraised to all in frequent meeting that everyone does some physical exercise in one form or another. Breathing walking etc. was in fact part of Yoga and if practiced regularly every day keeps the disease away. Demonstrations by a Yoga expert were given time and again and looking at the interests of the people, Yoga classes were organized in some of the colonies it also had moral and spiritual impact.

*"Start each day with a positive thought and a grateful heart."*
